## ZU4-Electric Wrench Pumps

Utilizing a universal motor, the ZU4-Series has excellent low voltage characteristics. It works well with long extension cords or generator driven electrical power supplies.

A field proven, efficient design ensures this pump is dependable and will draw less current—lowering your operating cost. **ZU4**-pumps are available in Pro and Classic formats.

**ZU4 Pro** pumps have an LCD feature to display torque or pressure, selectable torque wrench, and self-diagnostics – premium features not available on any other pump. An AUTO-CYCLE feature provides continuous cycle operation of the torque wrench as long as the advance button is pressed. The pump can also be used without auto-cycle feature.

**ZU4 Classic** pumps feature an analogue gauge and a basic electrical package to deliver durable, safe and efficient hydraulic power.

## ZA-Series Air Driven Wrench Pumps

Utilizing the highly efficient design of the Z-Class pumping element, this air driven pump is best suited to power medium to large size torque wrenches.
